

URGENT LETTER TO THE GOVERNING BODY, HEADMASTER AND TEACHERS
REGARDING THE VACCINATION OF OUR TEACHERS

I have an urgency that is pressing on my heart so heavily that it is literally a physical pain this morning.

I must speak my mind before it is too late.

The purpose of this letter is not to enter into a debate, it is to inform.

I humbly plead that you send it to all our teachers so that they can make informed decisions on their health.

I can assure you that there is no malice intended or ego in this letter, just a desperate concern for the welfare of our teachers whom we respect and love.

If this letter is the reason that even 1 single person stops in their tracks and re-consider choices that are made from fear at this point, my job here is done.

I strongly believe in personal choice. I am however advocating for informed choice.

I am pleading with them to first listen to medical experts, locally and internationally, that are shouting their warnings from the rooftops, or at least to hear what they are saying.

Evidence is piling up like mountains.

Please look at all the evidence before making life-altering irreversible decisions.

No job at the end of the day is worth your life.

I am in the fortunate position currently that I do not have to work.

I have had hundreds of hours of time to search, research and radically change my personal outlook on many things in the past year. Just for the record, I am not an anti-vaxer neither am I a conspiracy theorist.

I believe in critical thinking and doing my own research to explore all the facts, not just the ones presented in the mainstream media, before making decisions that can potentially ruin me financially and destroy my family's lives.

Regretfully due to unprecedented media and social media censorship, the truth about this vaccine is suppressed.

I will link the proof of what I am saying in the hyperlinks at the bottom of the page. The number of the hyper link coordinates with the number of the statement. You can simply click on them and the document will open.

What I have found over many months of speaking to doctors is that most of them believe the pharmaceutical companies claims. They are not doing their own homework. They do not have the time to do so.

At the very bottom I have included links to interviews with specialists who have been ignored, censored, fired, de-platformed and ridiculed for speaking out against the experimental DNA modifying mRNA gene therapy by mainstream media – this very fact should make you think twice. I have personally been part of a Facebook group of 200 000 people posting their injuries and death after vaccination. This group was deleted without notice as many others.

If you only do 1 thing in your life, please look at these sites that give you real-life reports on adverse effects:

SA vaccine adverse events:

www.savaers.co.za

<https://t.me/joinchat/vcCbmhBytI44M2Zk>

International adverse effects:

https://www.primarydoctor.org/covidvaccine?fbclid=IwAR3YXYOi10fQBBHl_warlbSEmdDoeoc4onQDFsUZO4jMrWgXtm9LUjFvZuA

<https://t.me/AmericasFrontlineDoctors>

<https://t.me/covidvaccinevictims>

I'm not telling you not to get vaccinated, you have to ultimately do what is right for you and your family.

I simply want to plead with you to delay, to make informed choices and see how this plays out in time.

We have been held hostage for 16 months already, what harm can a few more months do if it saves your life?

Making decisions based on fear is the worst possible scenario you can find yourself in, and to be frank, we have been bombarded with fearmongering for months on end.

I fell victim to it myself for many, many months until I finally woke up.

I did my precious child much harm due to me instilling this fear into his heart.

CRITICAL QUESTIONS YOU HAVE TO ASK YOURSELF BEFORE YOU GET THE COVID-19 VACCINE

- 1) Do you know that international doctors are imploring governments and pleading that they immediately stop the vaccination programs?

- 2) Do you know that the CDC, after a freedom of information request, has admitted in letters to Dr. Robert Young that they do not have proof of Covid-19. He has recently published those letters on his website. (link below)
- 3) Do you know that it is not appropriate to call this intervention a vaccine?
According to numerous prominent medical experts, it is better to refer to this as an experimental DNA modifying mRNA gene therapy. The data from the manufacturers only shows it lessens the severity of the symptoms experienced from Covid-19 and was tested over 2 months on a small portion of the population. It does not adhere to the WHO and FDA definition of a vaccine namely:
 - 1) It does not stimulate an immune response. (It does not enhance your immune system)
 - 2) It does not prevent infection (You can still get it)
 - 3) It does not stop transmission to other people. (You can still pass it on to other people)
- 4) Do you know that this experimental DNA modifying mRNA gene therapy has not been approved anywhere in the world yet as it is still in clinical trials that will only end in 2023? It was authorized for emergency use only. No-one on this planet can declare them safe & effective yet.
Do you know that it clearly states on the RSA government website that this is a RESEARCH PROJECT?
- 5) Do you know that anybody that takes this experimental DNA modifying mRNA gene therapy is effectively unwittingly taking part in this clinical trial and is a Guinea pig for unproven mRNA technology that has never been tested on or approved for Humans?
- 6) Do you know that the search for a Corona vaccine has been ongoing for the past 20 years and that the development of the mRNA vaccines were stopped after the animal studies ended due to 100% mortality in the animals? There were 3 studies in ferrets, cats, and mice with the same conclusion.
I am posting the links to all the animal trials and their results below.
- 7) Do you know that more people have died so far from this experimental DNA modifying mRNA gene therapy in 5 months than for ALL other vaccines COMBINED over the last 20 years?
- 8) Do you know that millions of people have been injured and permanently disabled due to this experimental DNA modifying mRNA gene therapy? Makes you wonder why this is not headline news...? Do you know that 0.8% of people to whom this experimental DNA modifying mRNA gene therapy is administered, die with 7 days after vaccination? Do you know that 86% of children who took part in the Pfizer trial had adverse reactions?
- 9) Do you know that the FDA has JUST in the past few weeks discarded 60 million contaminated doses of the same J& J vaccine that this government is still injecting into people?
- 10) Do you furthermore know that vaccine rollouts have been suspended in numerous countries due to adverse effects?
- 11) Do you know that the experimental DNA modifying mRNA gene therapy does not have a package insert that describes 1) the ingredients 2) ANYTHING actually – the inserts are blank.
Do you not think it wise to know what you are injecting into your body before you do it?
- 12) Do you know that the government and the vaccine manufacturers have been granted 100% immunity and non-liability for ANY death or injury or disability you may suffer due to their experimental DNA modifying mRNA gene therapy?
- 13) Do you know that internationally renowned virologists, epidemiologists, thousands of doctors and medical staff and prominent ex-employees of vaccine manufacturers have been speaking out against the application of this experimental DNA modifying mRNA gene therapy? I am talking of the calibre of people like Michael Yeadon (previous head scientist and CEO of Pfizer – strongly opposed to the vaccines) Geert van der Bosch (spent 40 years making vaccines for WHO – said that if these vaccinations do not stop, it will be the end of humanity), Luc Montagnier (French prominent virologist & Nobel Prize winner – says the vaccines are the cause of the variants and that it is an immense mistake), Dr. Byram Biddle (we made a huge mistake), Dr. Robert Malone is the inventor of the mRNA technology (calling for immediate halt to the vaccination program). Dr. Polyakova, who is the Medical Director of a hospital in Kent has said that the “levels of sickness after vaccination is unprecedented” among NHS staff, confirming that some are even suffering neurological symptoms which is having a “huge impact on the health service functioning”.
– strong words indeed, from knowledgeable people.
- 14) Do you know that all the adverse events predicted by these scientists are manifesting in populations that have been vaccinated 2-3 months prior to us? Do you know that there are massive concerns about the long-term effects especially on the youth? Do you know that miscarriages have increased over 3016 % in the UK since women of child-bearing age have been vaccinated? Do you know that governments are injecting pregnant women even though they were expressly left out of the safety studies done by the vaccine manufacturers and that there is NO safety data available for this group?

- 15) Do you know that the CDC is currently convening an emergency meeting to discuss the unprecedented percentage of vaccinated young men who are experiencing myocarditis, a rare heart inflammation disease?
- 16) Do you know that Pfizer's own documentation talks about viral shedding that occurs in the vaccinated and that many doctors and specialists list this as the reason we are seeing increased death? See below Studies that prove shedding exists. This is an excerpt out of the 192 page document: * A male family member or healthcare provider who has been **exposed to the study intervention by inhalation or skin contact** then exposes his female partner prior to or around the time of conception.
- 17) Do you know that numerous nurses internationally have stated that their patients that have come in over the past 2 months at deaths door from Covid-19 are all fully vaccinated people?
- 18) The development of vaccines take anything from 10-20 years. How can a number of companies rush through, and all come up with a vaccine within 7 months? Something is clearly fishy here. Either shortcuts were taken, or the vaccines already existed. Either way, this HAS to make you think about it! Do you know that Moderna and Johnson& Johnson has NEVER before supplied a vaccine to market? How is it that they "miraculously" found a cure within 7 months on their first try?
- 19) Do you know how mRNA technology works? That it changes your DNA to produce the spike protein that is in fact the cause of people dying from this experimental DNA modifying mRNA gene therapy?
- 20) Do you know that the origin of this virus is being exposed in the USA as we speak as a biological warfare agent designed by the Chinese? Do you know that there is a patent for Corona virus? Do you know that no natural occurring entity can be patented? Do you know that the patent states that it is an unnatural sequence? Do you know that Scientists from the Wuhan lab applied for a patent for a Covid-19 Vaccine in February 2020? This means they were developing the vaccine for much, much longer at that point.
- 21) Do you know that there was a patent registered for the testing of Covid-19 in...wait for it...2015! (Wait what? Is this not a virus that spontaneously started in Wuhan in a wet market in 2019?)
- 22) Do you know that there are studies that prove safe and effective treatments for Covid-19 even in RSA where doctors have had 0% death after treating thousands of infected people? Do you know that these treatments are suppressed, and these doctors threatened, de-platformed so that Vaccines can be pushed because if there are treatments, emergency use authorization cannot be granted to any vaccine? It's not just Ivermectin, doctors use Cortisone, Hydroxy Chloroquine, Anti-biotics, Zinc, Vitamin D etc.
- 23) Do you know that worldwide total numbers of death per country did NOT increase in 2020?
- 24) Did you know according to the CDC, Covid-19 has a higher survival rate than the seasonal flu across ALL age brackets?
- 25) Do you know that citizens after putting in freedom of information requests have letters from their health departments that state that 0% people died of Covid-19 alone in 2020?
- 26) Do you know that positive numbers are being exaggerated to justify lockdowns? Do you know that hospitals are getting paid to put Covid-19 on death certificates?
- 27) Do you know that the CDC recently stated on their website that they have been lying about the numbers of Covid Death: 94% of people who died in the USA had 2.6 pre-existing conditions? For only 6% of the deaths, COVID-19 was the only cause mentioned. Do you know that a Lisbon court just ruled that the actual deaths of Covid-19 was 152 people, NOT 17000 as their medical experts said!
- 28) Do you know that Kary Mullis the inventor of the PCR test and Nobel Prize winner clearly states that you cannot use it for diagnosis, that it cannot tell you if you are sick and that any PCR cycle over 25 will give 96%+ false positives?
- 29) Do you know that this was acknowledged on the WHO website On 20/21 January 2021 when they released an updated guide for users of PCR tests. In it, they state that a PCR positive test is not indicative of Covid-19. And that one needs a second test to confirm it if the result does not correspond with clinical symptoms.
- 30) Do you know that RSA labs are testing at 40-45 cycles? Testing for Covid-19 via PCR has 1 single purpose: To hype up positive numbers and instil fear in the population!
- 31) Have you seen the thousands of posts and videos of adverse effects that have been censored? Your hair will stand on end. There are many such groups & posts & videos on Telegram, Gab, Redit, Bitchute etc.
- 32) Do you know that millions of **testing kits for Covid-19** were sold across the world...wait for it...in 2017-2018! Wait! What? Was this not a disease that spontaneously started because some-one ate a raw bat at a wet market????
- 33) Do you know that the death curve in the most highly vaccinated countries follow exactly the vaccination curve? Do you know that deaths have exponentially increased since vaccinations started? In fact, the death rate in countries match exactly the curve of vaccination!

- 34) Vaers USA: More deaths have been recorded after 1 “vaccination” campaign in Jan – Apr 2021 than from ALL other vaccines combined from 1997 – 2013!
- 35) NO MATTER WHAT SOMEONE DIES OF, if they test positive or had a positive test 28 days prior to death, THEIR DEATH IS MARKED AS A COVID-19 DEATH. You can fall off a bridge and still have Covid-19 as cause of death on your death certificate.
- 36) Do you know that in many countries like the UK and Israel Vaccine deaths now exceed the daily deaths from Covid-19? How can the cure be worse than the disease?
- 37) Do you know that the blood transfusion service in the USA and other countries are refusing blood plasma from the vaccinated as they say it destroys any immunity contained in the blood?
- 38) Do you know that in an official UK government report it clearly states that they expect greater mortality from the 3rd Covid wave due to the VACCINATED?
- 39) Did you know that one of the ingredients in the vaccine is potassium chloride? Do you know what it is used for? It is used for executing criminals via injection. Another ingredient is SM-102. Look it up, it is a POISON.
- 40) Do you know that the Lancet peer reviewed study reveals vaccine efficacy not as 95% effective as stated by the manufacturers, but actually AstraZeneca: 1.3%, Moderna 1.2%, J&J 1.2%, Pfizer 0.84%. They deceived everyone by reporting RRR relative risk reduction instead of ARR absolute risk reduction. Furthermore, PFIZER AND MODERNA’S CLAIM OF “95% EFFECTIVE IS FALSE. BMJ Associate Editor Peter Doshi reviewed the data concluding these “vaccines” are at best 19% effective.
- 41) Do you know that Prominent Israeli researchers have concluded that: “we conclude that the Pfizer vaccine, for the elderly, killed during the 5 week vaccination period about 40 times more people than the disease itself would have killed, and about 260 times more people in the younger age class. We stress that this is in order to produce a green passport valid at most 6 months, and to promote Pfizer sales”
- 42) Do you know that an independent lab in South Carolina conducted tests on 1500 “supposed” Covid death samples? It was done by a PHD in virology and immunology using Koch’s postulates and SEM. They found Influenza A & B but not a single strain of evidence of Covid-19. They sent the samples to 7 universities including Stanford, Cornell, and University of California who all concluded the same. They are still waiting on the CDC to send them a viable sample of Covid-19.
- 43) Do you know that the Covid-19 experimental DNA modifying gene therapy earned the Pfizer \$3.5 billion in the first 3 months of 2021 – 25% of their total revenue. We have to follow the money to get to the bottom of what is currently going on and why vaccine mandates are pushed.
- 44) Do you know that the CDC is not an independent agency. It is a vaccine company. It owns over 20 vaccine patents. It sells +- \$4.6 billion of vaccines per year.
- 45) Do you know that Bill Gates has invested \$10 billion over the last 20 years in vaccine manufacture at a return on investment rate of 20 to 1 in his own words. Do you know that in an interview with Norah O Donnell Gates was called out on his Moderna Vaccine that caused adverse effects in more than 80% of the vaccinated after the second shot! Do you know that Bill Gates negotiated a \$100 billion tracing contract 6 months BEFORE Corona hit? Did you know that during a TED talk Bill Gates literally said that new vaccines can be used to reduce the world's population with 10 - 15%! Look from 2.4 minute mark. Bill Gates also tells us that this mRNA technology changes our DNA. (see video links below)
- 46) Do you know that a document named “Lockstep” that was published in 2010 that describes the emergency that is currently taking place globally almost EXACTLY to a T? This was read in the Dutch Parliament and on the international media stage in the past 7 days. Have you read it? PG.18 at the link below.
- 47) Here is a statement issued on 2021/05/28 by Dr. Byram Bridle, Associate Professor of immunology from the University of Guelph: “In short, the conclusion is, we made a big mistake, we did not realize it till now, we thought the spike protein was a great target antigen. We never knew the spike protein itself was a toxin and was as a pathogenic protein. So by vaccinating people we are inadvertently inoculating them with a toxin. With some people it gets into circulation and when that happens it can cause damage, esp. in the cardiovascular system. Blood clots, heart attacks, intestinal bleeding, crosses the blood brain barrier, is seen in breast milk which has been observed causing intestinal bleeding in infants. My question is, with the spike protein accumulating in the ovaries especially, are we rendering some of them infertile?”
- 48) Do you know that airlines are not allowing the vaccinated to fly due to increased risk of blood clots?
- 49) Do you know that the lipid nanoparticles do not remain in the intramuscular region of the deltoid/they seep out into the cardiovascular system infecting the entire body with SPIKE PROTEIN? Something the manufacturers claimed would never happen, yet it does, and we have adverse-side effects bad from this shot. Please see an autopsy on a patient that died from the vaccine below.
- 50) Do you know that there is serious conflict of interest with regards to the governing bodies and the people pushing for the vaccines?

51) Worldwide the vaccinated have not regained freedoms. The opposite is true in fact.

They cannot remove masks, they cannot congregate, they cannot travel, they still have to social distance.

Do you know that the damage incurred or injury to yourself as well as any current or future costs, financial or otherwise after taking this experimental DNA modifying gene therapy is IRREVERSIBLE?

No doctor can help you.

The vaccine companies will definitely not help you they have blanket immunity against all legal claims.

If you gain nothing but stand to lose everything including your life, what is the point of getting a vaccine?

To me personally it seems that the risks far outweigh the benefit.

HOW DO THE VACCINES WORK?

- The Pfizer and Moderna Covid-19 injections use lipid nanoparticles (LNPs) coated with polyethylene glycol (PEG), a synthetic, non- degradable polymer associated with adverse immune responses, that shield the mRNA and promote cellular uptake.
- AstraZeneca is an adenovirus Covid-19 injection which uses an adenovirus that infects chimpanzees. AstraZeneca halted its Covid- 19 clinical trials several times as trial participants developed transverse myelitis. 2/3 of the individuals who experienced this remain permanently disabled.
- Johnson & Johnson's injection is an "adenovirus vectored" vaccine that "tricks" the cells into making coronavirus spike protein. The injection uses a genetically modified live common cold virus as a Trojan horse to "shuttle" spike protein DNA into human cells. The J&J Covid-19 injection is the first "adenovirus- vectored" injection authorized for general population use.

MAJOR CONCERNS:

- THERE ARE NO LONG-TERM SAFETY STUDIES: New vaccines take on average 7-12 years to develop; these new "vaccines" were rolled out in 9 months. ALL were FAST TRACKED for rapid use through Emergency Use Authorization (EUA) bypassing long term trials, animal trials and regulatory approval.
- ANTIBODY DEPENDENT ENHANCEMENT: a form of pathogenic priming, meaning the vaccine can result in a more severe disease. COVID-19 vaccine trials were not designed to detect ADE. Prior attempts to create a coronavirus vaccine killed all the test animals after they encountered the virus in the wild.
- PEG: The mRNA strands in the Pfizer and Moderna "vaccines" are coated with polyethylene glycol (PEG). PEGylated lipid nanoparticles have been correlated with anaphylactic shock, inducing allergies, autoimmune disease and causing liver damage.
- HISTORY OF MRNA INJECTIONS: Dengue vaccine is an mRNA vaccine. Used in the Philippines, many vaccinated children had far worse outcomes than unvaccinated children upon subsequent exposures to dengue, and many died. This had been known to happen with ferrets and with cats. In all cases, the vaccinated animal or human became more vulnerable to worse disease when confronted with it.

ADDITIONAL SIDE EFFECTS: Guillain-Barré syndrome • Acute disseminated encephalomyelitis • Transverse myelitis • Thrombosis • Cerebral Haemorrhages • Encephalitis/myelitis/encephalomyelitis • Convulsions/seizures • Stroke • Anaphylaxis • Acute myocardial infarction • Autoimmune disease • Infertility/Miscarriages • Deaths • Thrombocytopenia • Multi-system Inflammatory Syndrome in Children

Lies from the media and fact checkers who are paid by the pharmaceutical companies – you can check who are their donors yourself if you do not believe me: <https://www.reuters.com/article/factcheck-covid-vaccines-idUSL1N2M70MW>

- 5) Here are all the clinical trials and dates of their end listed in a short list:
AstraZeneca [clinicaltrials.gov](https://clinicaltrials.gov/ct2/show/NCT04516746) continued trials until 2023, US National Library of Medicine.
<https://clinicaltrials.gov/ct2/show/NCT04516746>
Pfizer [clinicaltrials.gov](https://clinicaltrials.gov/ct2/show/NCT04368728) continued trials until 2023 -
<https://clinicaltrials.gov/ct2/show/NCT04368728>
Moderna clinical trials continued until 2022 -
<https://www.clinicaltrials.gov/ct2/show/NCT04470427>
Curevac AG clinical trials continued until 2022 –
<https://clinicaltrials.gov/ct2/show/NCT04652102>
Johnson & Johnson clinical trials continued until 2023 -
<https://clinicaltrials.gov/ct2/show/NCT04505722>
- 6) I suggest that you read up on the mRNA animal studies conducted (ferrets, cats mice) that were summarily stopped due to almost 100% mortality caused by this experimental mRNA modifying therapy. ALL animal trials resulted in disaster, the death of most or all of the animals.

- There are no peer-reviewed published human trials of mRNA vaccines at all, and no mRNA vaccine has ever been FDA approved. Here is the study with ferrets from 2012:

<https://journals.plos.org/plosone/article?id=10.1371/journal.pone.0035421>

“These SARS-CoV vaccines all induced antibody and protection against infection with SARS-CoV. However, challenge of mice given any of the vaccines led to occurrence of Th2-type immunopathology suggesting hypersensitivity to SARS-CoV components was induced. Caution in proceeding to application of a SARS-CoV vaccine in humans is indicated.”

Here are the same results in cats:

https://www.jstage.jst.go.jp/article/jvms/60/1/60_1_49/article

And the same results in mice:

<https://pubmed.ncbi.nlm.nih.gov/22536382/>

<https://pubmed.ncbi.nlm.nih.gov/17194199/>

<https://pubmed.ncbi.nlm.nih.gov/18941225/>

7) https://childrenshealthdefense.org/defender/tucker-carlson-how-many-americans-died-covid-vaccines/?utm_source=salsa&eType=EmailBlastContent&eld=d1625968-5649-4caf-bd04-675632888b6b

8) <https://www.technocracy.news/shock-european-union-reports-1-5-million-vaccine-injuries-15472-deaths/>
<https://truthunmuted.org/fda-document-reveals-86-of-children-who-participated-in-pfizer-covid-vaccine-trial-experienced-adverse-reactions/>

USA: On the CDC's own website, (www.cdc.gov (<http://www.cdc.gov/>)), there is a link to research Vaccine Adverse Events. I researched "deaths".

1. Go to wonder.cdc.gov (<http://wonder.cdc.gov/>)
2. Click on Vaccine adverse event reporting
3. Select VAERS Data Search
4. Group results by symptoms, and by VAERS ID, and by vaccine manufacturer, and by state, and by age
5. In the next box, select symptoms - select "all"
6. Select Vaccine characteristics: select "COVID 19 VACCINE"
7. Select location: United States
8. Other event characteristics: select "Death"
9. Leave all other boxes at the default setting, select search at the bottom of the form.

Here are the results: These are ONLY THE DEATHS THAT ARE BEING REPORTED!!!!

Message from website:

This request produces 94,063 rows, but 10,000 is the maximum allowed. Simplify this request or send a series of smaller ones. For example, group results by race but limit each query to a single race. Send a request for each race group and then merge the results. Please contact user support (<https://wonder.cdc.gov/ContactUs.html>) for further assistance.

Now, if you narrow your search, (I selected women, California, Moderna), your search will produce a table which shows age, symptoms and date of shot for each death.

"The total number is now 96,767, almost 2000 more since the last time I checked (one week ago). If you check "all events" instead of "death", that number is 6,600,000. From the Covid vaccine."

Joel Smalley
@RealJoelSmalley

Did you know almost 4,000 children have been vaccinated for COVID-19 in the States?

And that:

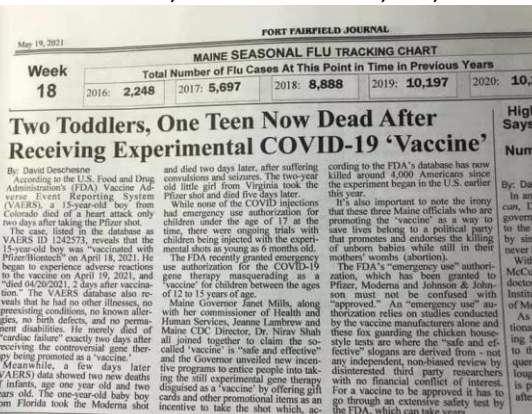

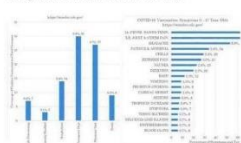

9 died within 28 days (0.2%)?

7 almost died?

3 were permanently disabled?

71 had to see a doctor or were admitted to hospital or had their stay prolonged?

Why isn't this headline news?

Two Toddlers, One Teen Now Dead After Receiving Experimental COVID-19 'Vaccine'

By David Deschamps
According to the U.S. Food and Drug Administration's (FDA) Vaccine Adverse Event Reporting System (VAERS), a 15-year-old boy from Colorado died of a heart attack only two days after taking the Pfizer shot. The case, listed in the database as VAERS ID 1242573, reveals that the 15-year-old boy was "vaccinated with Pfizer-BioNTech" on April 18, 2021. He began to experience adverse reactions to the vaccine on April 19, 2021, and died on April 20, 2021, two days after vaccination. The VAERS database also reveals that he had no other illnesses, no preexisting conditions, no known allergies, no birth defects, and no permanent disabilities. He merely died of "cardiac failure" exactly two days after receiving the controversial gene therapy being promoted as a "vaccine." Meanwhile, a few days later (VAERS) data showed two new deaths of infants, age one year old and two years old. The one-year-old boy from Florida took the Moderna shot and died two days later, after suffering convulsions and seizures. The two-year old little girl from Virginia took the Pfizer shot and died five days later. While none of the COVID injectors had emergency use authorization for children under the age of 17 at the time, there were ongoing trials with children being injected with the experimental shots as young as 6 months old. The FDA recently granted emergency use authorization for the COVID-19 gene therapy masquerading as a "vaccine" for children between the ages of 12 to 15 years of age. Maine Governor Janet Mills, along with her commissioner of Health and Human Services, Joanne Lambrew and Maine CDC Director, Dr. Nirav Shah all joined together to claim the so-called "vaccine" is "safe and effective" and the Governor unveiled new incentive programs to entice people into taking the still experimental gene therapy disguised as a "vaccine" by offering gift cards and other promotional items as an incentive to take the shot which, according to the FDA's database has now killed around 4,000 Americans since the experiment began in the U.S. earlier this year. It's also important to note the irony that these three Maine officials who are promoting the "vaccine" as a way to save lives belong to a political party that promotes and endorses the killing of unborn babies while still in their mothers' wombs (abortion). The FDA's "emergency use" authorization, which has been granted to Pfizer, Moderna and Johnson & Johnson must not be confused with "approved." An "emergency use" authorization relies on studies conducted by the vaccine manufacturers alone and these fox guarding the chickens house-style tests are where the "safe and effective" slogans are derived from - not any independent, non-biased review by disinterested third party researchers with no financial conflict of interest. For a vaccine to be approved it has to go through an extensive safety test by the FDA, which can take years.

THE DAILY EXPOSE

[HTTPS://DAILYEXPOSE.CO.UK/2021/03/21/MISCARRIAGES-AFTER-HAVING-COVID-VACCINE-INCREASES-BY-366-PERCENT/](https://dailyexpose.co.uk/2021/03/21/miscarriages-after-having-covid-vaccine-increases-by-366-percent/)

Number of women to lose their unborn child after having the Covid Vaccine increases by 366% in just six weeks

09:11

UK, EU & US DATA

COVID-19 VACCINE DAMAGE

OVER 2.2 MILLION VACCINE INJURIES SO FAR

REGION	TOTAL REPORTED
UK Fatalities - 12th May 2021	1,180

IMPORTANT INFORMATION

Coronavirus Vaccines are in clinical trials until 2023.

A total of **757,564 reactions** and **1,102 deaths** have been reported. Only 10% of reactions and deaths get reported.

Ask your Doctor about the clinical trials and the vaccine ingredients.

IS THE VACCINE SAFE?

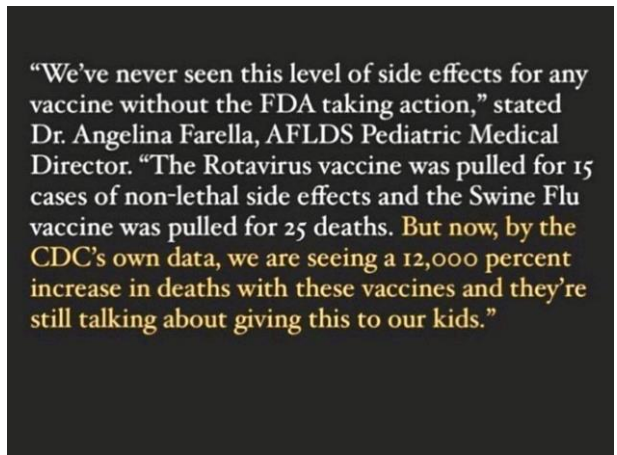

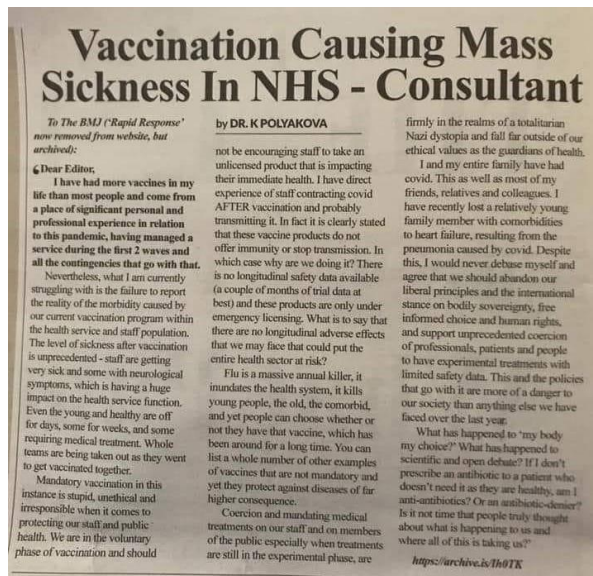

NO

WHY?

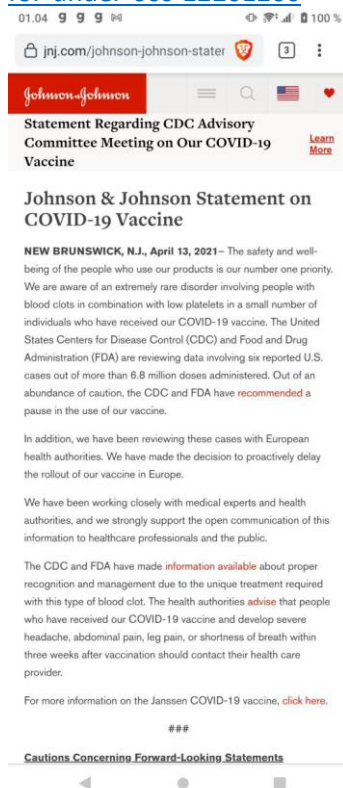

Take a look at the deaths from Covid-19 and the Vaccine Trials

- S) Measles outbreak among the vaccinated:
<http://www.ncbi.nlm.nih.gov/pubmed/8053748>

We don't know for certain how long shedding occurs because we don't test for it long term or regularly but in rare instances, it has gone on for years:

<http://www.westernmorningnews.co.uk/Vaccinated-man-spread-polio-30-years/story-27693988-detail/story.html>

Additionally, the Dtap/Tdap that is NOT live vaccine has been shown by the FDA to cause the vaccinated to become asymptomatic carriers whenever exposed to the bacteria for both pertussis and diphtheria, thus spreading the illness without knowing

Pertussis carrier: <http://www.fda.gov/NewsEvents/Newsroom/PressAnnouncements/ucm376937.htm>

Diphtheria carrier: <http://www.cdc.gov/diphtheria/clinicians.html>

Vaccines spread disease.

Pertussis lives in the throats of the recently vaccinated, making them asymptomatic carriers who can (and do) spread the disease:

<http://web.archive.org/web/20170219235003/https://www.fda.gov/NewsEvents/Newsroom/PressAnnouncements/ucm376937.htm>

JOHNS HOPKINS UNIVERSITY CONFIRMS THAT “SELF-SPREADING” VACCINES ARE REAL

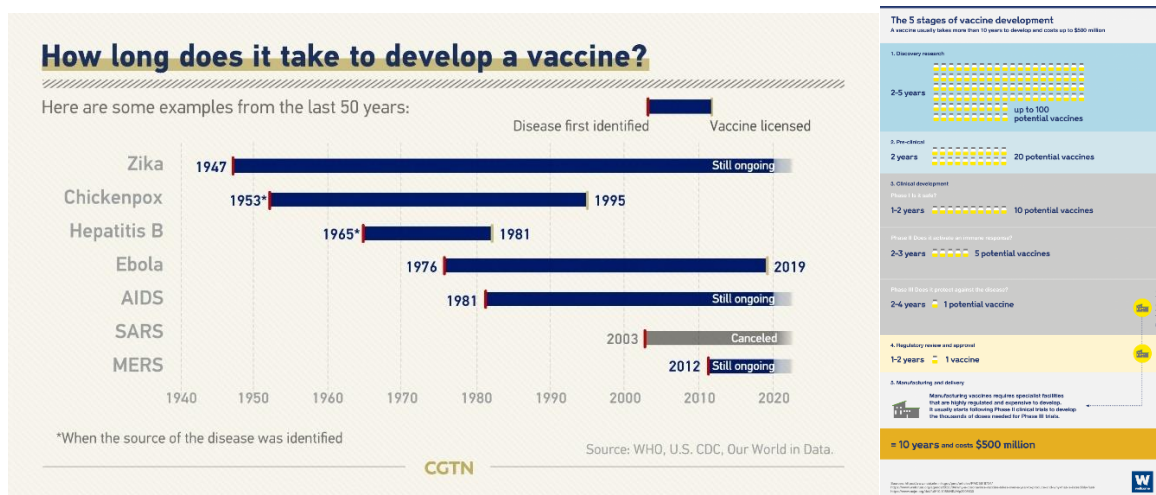

🕒 MAY 8, 2021 📍 THE TATTY JOURNAL 💬 6 COMMENTS

By [Ethan Huff](#) (via [Natural News](#))

Most Americans are saying no to Wuhan coronavirus (Covid-19) vaccines despite the deep state's best efforts to sway them. It may not matter, though, because the jabs could be self-spreading, meaning the vaccinated could be effectively vaccinating the unvaccinated simply by “shedding” it onto them.

A [Johns Hopkins University](#) (JHU) paper explains how self-spreading vaccines work to spread through both vaccinated and unvaccinated populations by design. Even if you forego the jab, in other words,

Dr. Fauci has a lot of explaining to do...

The Virology Journal – the official publication of Dr. Fauci's National Institutes of Health – published what is now a blockbuster article on August 22, 2005, under the heading – get ready for this – “Chloroquine is a potent inhibitor of SARS coronavirus infection and spread.” (Emphasis mine throughout.) Write the researchers, “We report...that chloroquine has strong antiviral effects on SARS-CoV infection of primate cells. These inhibitory effects are observed when the cells are treated with the drug either before or after exposure to the virus, suggesting both prophylactic and therapeutic advantage.”

This means, of course, that Dr. Fauci has known for 15 years that chloroquine and its even milder derivative hydroxychloroquine (HCQ) will not only treat a current case of coronavirus (“therapeutic”) but prevent future cases (“prophylactic”). So HCQ functions as both a cure and a vaccine. In other words, it's a wonder drug for coronavirus. Said Dr. Fauci's NIH in 2005, “concentrations of 10 µM completely abolished SARS-CoV infection.” Fauci's researchers add, “chloroquine can effectively reduce the establishment of infection and spread of SARS-CoV.”

Abstract

Introduction: The aim of this review is to determine the Effectiveness of Oral Chlorine Dioxide in the Treatment of COVID 19.

Methods: Research on the mechanism of action of chlorine dioxide on viruses, on the oral consumption of water-solubilized ClO₂ and on its toxicity was reviewed; a quasi-experimental investigation was conducted on the use of oral water-soluble chlorine dioxide in the treatment of 20 patients with active COVID19 infection, compared to a control group of 20 patients not treated with chlorinedioxide.

Results: To compare the effect in the experimental group versus the control group, a test of comparison of proportions and their confidence intervals was performed for the general symptoms, and for the VAS and Likert criteria, a paired test using the Wilcoxon-Mann-Whitney test (α: 95%) was performed. When comparing the experimental group with the control group on the seventh day after symptom manifestation, a significant difference was found in the experimental group with respect to the control group for the symptoms Fever (p: 0.000), Cough (p: 0.000), Chills (p: 0.000) and Dyspnea (p: 0.0006). When performing the visual analogous comparison of pain in the control group and in the experimental group, it was found that in all the items that make up the scale decreased significantly in this group with respect to the control group (p: 0.000; p: 0.0017). On day 14 post-demonstration the difference was greater (p: 0.000; p: 0.0043). When evaluating both groups (Control and Experimental) in the laboratories, a difference was found for the values of the parameters PC Reactive on day 7 (p: 0.0001) and DH Lactate (0.0036), with higher scores for the experimental group; Dimero-D on day 7 (p: 0.0194) and on day 14 (p: 0.0029); difference was found in all parameters. The results overall (p < 0.05) demonstrate the hypothesis that chlorine dioxide is effective in the treatment of COVID19.

Conclusion: Chlorine dioxide is effective in the treatment of COVID19 and the mechanisms of action by which it acts to achieve it are proposed in this work. We recommend doing more research. We recommend conducting double-blind studies and delving into studies of toxicological safety and therapeutic efficacy of chlorine dioxide in pathologies of epidemiological importance in the near future.

Our Ref: FOI - 2035 - Covid-19

Request & Trust Response

I would like to request a Freedom of Information in relation to the COVID-19 deaths following the NHS England's update on the 20 April 2020 in which they provided the breakdown of age and ethnicity which is helpful to the public which, of course, can be found here:

<https://www.england.nhs.uk/statistics/st...>

But more information is required so that the public have a right to know:

Question	Trust Response
1. I would like to know How many people have died in your hospitals from Covid 19 alone? As in they died only due to Covid 19. I can see the figures that you publish online, but these are deaths within 28 days of a positive covid test, so they could have died from other causes. I just want to know the exact figure from 1st February 2020 until the 20th December of people that have died due to Covid-19 and not anything else please	The Trust has reviewed this FOI and can confirm Zero patients had died from Covid-19 alone within our hospitals.
2. The percentage & number of people with 'underlying health conditions' in the overall total.	0% of the overall total as per question 1 response
3. The percentage & number of those without underlying health problems.	0% of the overall total as per question 1 response

Officially its the flu. "I have a PhD in virology and immunology. I'm a clinical lab scientist and have tested 1500 "supposed" positive Covid 19 samples collected here in S. California. When my lab team and I did the testing through Koch's postulates and observation under a SEM (scanning electron microscope), we found NO Covid in any of the 1500 samples. What we found was that all of the 1500 samples were mostly Influenza A and some were Influenza B, but not a single case of Covid, and we did not use the B.S. PCR test. We then sent the remainder of the samples to Stanford, Cornell, and a few of the University of California labs and they found the same results as we did, NO COVID. They found Influenza A and B. All of us then spoke to the CDC and asked for viable samples of COVID, which CDC said they could not provide as they did not have any samples. "We have now come to the firm conclusion through all our research and lab work, that the COVID 19 was imaginary and fictitious. The flu was called Covid and most of the 225,000 dead were dead through co-morbidities such as heart disease, cancer, diabetes, emphysema etc. and they then got the flu which further weakened their immune system and they died. I have yet to find a single viable sample of Covid 19 to work with. "We at the 7 universities that did the lab tests on these 1500 samples are now suing the CDC for Covid 19 fraud. The CDC has yet to send us a single viable, isolated and purified sample of Covid 19. If they can't or won't send us a viable sample, I say there is no Covid 19, it is fictitious. The four research papers that do describe the genomic extracts of the Covid 19 virus never were successful in isolating and purifying the samples. All the four papers written on Covid 19 only describe small bits of RNA which were only 37 to 40 base pairs long which is NOT A VIRUS. A viral genome is typically 30,000 to 40,000 base pairs. With as bad as Covid is supposed to be all over the place, how come no one in any lab world wide has ever isolated and purified this virus in its entirety? That's because they've never really found the virus, all they've ever found was small pieces of RNA which were never identified as the virus anyway. "So what we're dealing with is just another flu strain like every year, COVID 19 does not exist and is fictitious. I believe China and the globalists orchestrated this COVID hoax (the flu disguised as a novel virus) to bring in global tyranny and a worldwide police totalitarian surveillance state, and this plot included massive election fraud." #Hoax #CovidIsAScam #Scam #Truth #WakeUp #YeahImGonnaFuckingPostIt. jeerzoliopinions.onlinegroups.net/groups/joe...

Public Health England			
SARS-CoV-2 variants of concern and variants under investigation in England			
Data taken from table 4 published by Public Health England as part of their technical briefing 16, dated 18th June 2021			
From the previous table of data, these figures are for the Delta variant	CASES	DEATHS	PERCENT
UNVACCINATED	35521	34	0.095%
VACCINATED	17642	37	0.209%
Infection Fatality Risk is more than DOUBLE in those who are vaccinated

29th April 2021

IMPORTANT INFORMATION
Coronavirus Vaccines are in clinical trials until 2023.

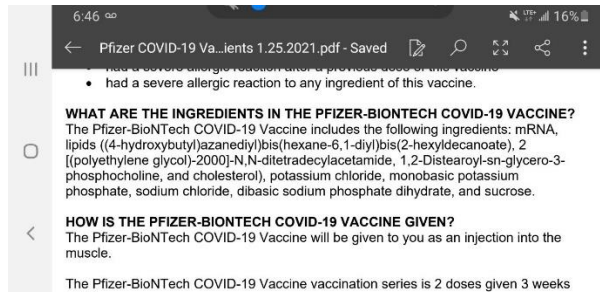

A total of **757,564 reactions** and **1,102 deaths** have been reported.
Only 10% of reactions and deaths get reported.
Ask your Doctor about the clinical trials and the vaccine ingredients.

IS THE VACCINE SAFE?
NO
WHY?
Take a look at the deaths from Covid-19 and the Vaccine Trials

DEATHS PER DAY	
Covid-19	Vaccine Trials
5	8

@TheLancet Peer reviewed study confirms vaccine efficacy, not as 95% stated by the vaccine companies, but as:

Astra Zeneca 1.3%

Moderna 1.2%

J&J 1.2%

Pfizer 0.84%

They deceived everyone by reporting Relative Risk Reduction (RRR) rather than Absolute Risk Reduction (ARR)

Visit our Re-post guidelines

"We conclude that the Pfizer vaccines, for the elderly, killed during the 5-week vaccination period about 40 times more people than the disease itself would have killed, and about 260 times more people than the disease among the younger age class. We stress that this is in order to produce a green passport valid at most 6 months, and promote Pfizer sales."

~ Haim Yativ and Dr Seligmann, Israeli researchers

- 43) A) <https://www.dailymail.co.uk/news/article-9606183/COVID-19-vaccines-minted-NINE-new-pharma-billionaires.html>

The FDA receives 45% of its annual budget from the pharmaceutical industry. The World Health Organization gets roughly 50% of its budget from private sources, including Bill Gates and Big Pharma. The CDC is a vaccine company; it owns 56 vaccine patents and buys and distributes \$4.6 billion in vaccines annually through the Vaccines for Children program.

That's not 'science'. That's business. @Colmbck

Can I stop general Covid-19 protection measures once I have the vaccine?

Can I stop general COVID-19 protection measures once I have the vaccine?

No, you should continue to use general COVID-19 protection measures (such as wearing a mask and practising social distancing) after being vaccinated. Even though you will be protected from getting severely ill and dying, studies have not yet shown enough data to prove that vaccinated people cannot spread the virus to others. Thus it remains possible that a vaccinated person could spread the virus to others, even if they are not showing any symptoms.

#VaccineRolloutSA

Annual Covid vaccine will be needed for 10 years with flu 'bigger threat' this winter

Covid jabs will be needed for at least the next 10 years said NHS chief Chris Hopson. There is also a warning that flu could be a bigger threat than Covid this winter
